Mr. Watts – Thank you for writing to the Department of Health. Your comments and concerns have been noted.

Florida Department of Health

Mission

To protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

NOTE:

Florida has a very broad public records law. Most written communications to or from state officials regarding state business are public records available to the public and media upon request. Your email communication may therefore be subject to public disclosure.

Dear Senate President Witon Simpson: When sending a "constituent request" to Gov. DeSantis, just now, regarding 3 "critical" life-or-death issues, for which I seek assistance, I included a 4TH matter-- regarding how you defended Senator Tina Scott Polsky (D-Dist.29) regarding the flap over Dr. Ladapo's refusal to wear a mask when he and 2 aides visited her office: <https://www.wptv.com/news/political/florida-senate-president-calls-dr-joseph-ladapos-unmasked-encounter-with-sen-tina-polsky-disappointing>

** <https://www.fox13news.com/news/simpson-supports-senator-after-mask-request-refused>

** <https://floridapolitics.com/archives/468306-have-some-manners-wilton-simpson-doubles-down-on-joseph-ladapo-admonishment/>

** <https://wusfnews.wusf.usf.edu/politics-issues/2021-10-26/florida-senate-president-supports-state-senator-after-her-mask-request-was-refused>

Thank you for defending her in this regard -- but I forgot to cc copy you in my email, below. While I know you all try hard to represent "We The People," my state (and federal) lawmakers have overlooked a **lot** of critical, life-or-death needs - such as the four (4) issues mentioned below. While, normally, Florida lawmakers and the governor don't "butt into" Federal matters, nonetheless, issue "III. Federal "student debt" to Fla State "annual budget" ratio (economic crisis)," below is the exception: Florida lawmakers can pass a resolution, calling on Federal lawmakers to act (preferable with the 3 Conservative "Free Market" solutions I request: Student Loan Bankruptcy restoration, Subsidy Cuts, and Price Controls-- perhaps directly funding Higher Ed like Public Ed is done: Would cost taxpayers LESS and would cost STUDENTS less! -- maybe make a few rich higher ed swamp types uncomfortable, but they lived within their means in the past, and do so now in PUBLIC ed, so why not higher ed?). The "GRID" issue is both state and federal. Please act! The cancer epidemic is killing far more people than any pandemic could ever dream of, and I think this is a health crisis even moreso. Lastly, I address several aspects of the "Ladapo v Polsky" controversy -- hopefully both accurately and respectfully -- that NO ONE else addressed. This is costing me loads of personal time, and I think I should be paid if I end up saving the state and nation on several fronts... But in the mean time, I will work for free--and hope and expect my state and federal lawmakers to act. Please speak to my "do nothing" federal lawmakers regarding the budget, higher ed, and grid issues. (We need to cut Federal higher ed subsidies, because the cost taxpayers -- obviously -- AND costs students -- because out-of-control colleges raise tuition to match increased borrowing abilities.) See below for my email -- and please see the attachments. One last thing: Besides my 2 friends, Alan Collinge and Dr. Peter Vincent Pry, I am also friends with Kevin F.F. Montague, the anti-cancer researcher referenced, below, and can vouch for him. (Mt. Collinge, by the way, is not liberal and **doesn't** really want "forgiveness" or "cancellation," preferring, as I do, at least 1 of the 3 free market solutions I outline: You can Google him for more info: His petition that looks liberal is merely a product of public outrage, but is not our 1st choice solution... unless, of course, we "conservatives" fail -- and then, yes, maybe we ought to give in to Democrats and Liberals and admit we don't know the answers. Please act. "Not acting" **is** acting to not act.

I. "GRID" Exec Order re protecting/securing Fla Power/Telcom GRID (security threat)

II. Health / anti-cancer research (health crisis/threat)

III. Federal "student debt" to Fla State "annual budget" ratio (economic crisis)

IV. The public relations issue with regard to Dr. Joseph A. Ladapo, MD, PhD (PR issue)

Dear Governor DeSantis and staff:

I'm following up on my prior scheduling request, which I e-mailed you on Fri, 29 Oct 2021, 3:15 PM, at the request of Sharon in Citizen Services. I haven't heard back, so I'm following up.

In case it was lost in the "hustle & bustle" of millions of other Fla constituents, I made a request to meet with you (or, more likely, your staff) regarding a matter that was brought to my attention by my good friend, Alan M. Collinge, the legendary student debt expert: I have fact-checked Mr. Collinge's claims that FLORIDA'S ****Federal**** student debt, at \$118.9 Billion, is way more than Florida's "annual" ****state**** budget of about \$81 Billion or so—which is an economic crisis to Florida. While some have been asking you to call upon Pres. Biden to "forgive" student debt (which he legally can do—and without needing any appropriations or raising any new taxes, as this debt has been repaid several times over—see attached legal memo to verify), nonetheless, you & I are far-right Conservatives & don't favour such approaches, so Alan, myself, & others feel you might call on federal lawmakers to pass S.2598 into law, the Fresh Start Student Loan bankruptcy bill, with (as of press time) twice as many GOP sponsors as Democrat—our Conservative alternative, and H.R.4907, a similar bill addressing private loans—both of which would "tamp down" out-of-control lending of MY tax dollars to make/back toxic student loans to students who can never repay these over-inflated costs:

**** <https://www.Congress.gov/bill/117th-congress/senate-bill/2598/cosponsors>**

**** <https://www.Congress.gov/bill/117th-congress/house-bill/4907/text>**

Collinge's claims – both about the Federal/State debt ratio, as well as the ability to "forgive" said debt without needing one penny of additional taxes – was "fact checked" by the undersigned writer and found true: See <https://ContractWithAmerica2.com/#19states> and the attached legal memo addressing "forgiveness" of student debt by Exec Order. ("Forgiveness" is an incorrect term, as it implies "sin" by students. "Cancellation" is more accurate, but we use "forgiveness," as it's modern vernacular.) **However, while preparing to email you & follow up on that matter, I was reviewing my notes & noticed that you haven't—as yet—implemented an Executive Order to harden, secure, & protect Florida's fragile power & telecommunications "GRID" (e.g., power, Internet, 911 service, water, critical infrastructure, etc.) a project with which another friend, the legendary Dr. Peter Vincent Pry (EMP Taskforce Exec Director), was assisting you: <https://www.flgov.com/executive-orders-desantis/> In fact, if you search your inbound email, you'll notice my earlier email, dated Sat, 20 Nov 2021, 3:27 PM, addressing this & providing you a copy of both my published paper on solar flare threats and Dr. Pry's "Blackout Warfare" book in PDF format.**

Now, since both Dr. Pry and myself (no doubt other advisory experts too) have provided you copious materials & guidance, “conventional” logic would suggest I need not bother you further on this. However, for reasons even I can't explain, a “gut feeling” says you still need my help (forgive me if I'm wrong). But, before anyone starts making fun of my “gut feeling” appeal, here, let me remind ALL readers that it was this same “gut feeling” that told me to get involved with the legendary “Terri Schiavo” pro-life case—and we all remember how that turned out: While our “pro-life” side eventually lost, nonetheless, my petition to the Florida Supreme Court, in my bid to be her “Next Friend” (a type of legal guardian), almost won, doing better than all other pro-life litigants—combined:

[1] *In Re: GORDON WAYNE WATTS (as next friend of THERESA MARIE 'TERRI' SCHIAVO)*, No. SC03-2420 (Fla. Feb.23, 2005), denied 4-3 on rehearing. (Watts got 42.7% of his panel) <https://www.FloridaSupremeCourt.org/clerk/dispositions/2005/2/03-2420reh.pdf>

[2] *In Re: JEB BUSH, GOVERNOR OF FLORIDA, ET AL. v. MICHAEL SCHIAVO, GUARDIAN: THERESA SCHIAVO*, No. SC04-925 (Fla. Oct.21, 2004), denied 7-0 on rehearing. (Bush got 0.0% of his panel before the same court) <https://www.FloridaSupremeCourt.org/clerk/dispositions/2004/10/04-925reh.pdf>

[3] *Schiavo ex rel. Schindler v. Schiavo ex rel. Schiavo*, 403 F.3d 1223, 2005 WL 648897 (11th Cir. Mar.23, 2005), denied 2-1 on appeal. (Terri Schiavo's own blood family only got 33.3% of their panel on the Federal Appeals level) <https://Media.CA11.UsCourts.gov/opinions/pub/files/200511556.pdf>

[4] Key point: I did better than Bush et al—all by myself (well, I must credit God Almighty, but no one else helped) In fact, if you look carefully at <https://ContractWithAmerica2.com/#staff>, and see my entry in the “Meet the Staff” section of **CONTRACT WITH AMERICA: PART II(TM)**, or look at the reference section of the 2 legal memos (my written testimony to the U.S. Senate Judiciary Committee on S.2598 and the “Forgiveness” legal memo—both included in the email attachments today), you'll see a string of legal “miracles,” such as how my Federal Civil Rights lawsuit against ten corrupt ILLINOIS state judges has not, as of press time, been “tossed out” and dismissed (suing judges for ANY thing is almost impossible), or my *amicus* to a Federal Appeals court on the recent “gay marriage” case (where I defended the traditional definition of marriage, while also defending gays against various mistreatment). Lastly, you'll notice the “list of supporters,” in the attachments, for the student loan bankruptcy issue include numerous ****public**** written statements from numerous local GOP Republican leaders—something of a miracle, as we all know how reluctant the GOP has been in supporting this issue. That wasn't easy!.. but all parties quoted happily cooperated with my request to provide me with a written public statement supporting Student Loan Bankruptcy restoration—as the U.S. Constitution's uniformity clause requires: See Art.I, Sec.8., cl.4., **U.S. Const.**

If we've learned nothing else today, it's at least this: When I need to “drop a big name,” I can drop my ****own**** name—and this fact will be necessary to convince you that it would be appropriate to read (or ask staff to read) my “longer than usual” email, here—and the several attachments included.

One last thing before I address the issues in the subject line above:

You'll notice that, instead of “one” subject, there are four (4) subjects—something that is generally “frowned upon” in professional writing. Well, since 3 of the 4 issues above can cause Florida to sink into destruction—never to return, and are genuine threats and crises (the PR matter, while important, isn't a “life-or-death” crisis), I either address these matters or risk having **blood** on my hands for failing my moral duty to protect my fellow Americans and Floridians.

So, I was left with only 2 options: One “long” (multi-subject) email—or four (4) smaller, shorter e-mails.

When this matter came up in discussions I had with legislative staff of Fla State Senator, Danny W. Burgess, Jr. (R-FL-Dist.20), my state senator, staff with whom I spoke agreed with my assessment that “one long” email was more convenient. My dear mother, on the other hand (from whom I seek counsel), respectfully dissented, and said that including Dr. Ladapo's matter with 2—3 other subjects was “too much,” and to write “separate emails.” In the “court of public opinion,” I sit in appellate authority, and this matter came before me to break the tie. After careful consideration of the facts (especially considering you & your staff are “real people,” & I need to meet you halfway—and make your job as easy as possible), it was the undersigned writer's judgment that Burgess' staff were correct: I respectfully dissent from the judgment of my dear mother on this one. ***With that said, I shall commence to address these 4 matters:***

I. “GRID” Exec Order re protecting/securing Fla Power/Telcom GRID (security threat)

*****CAVEAT>>>** It seems pretty clear & obvious that, when using Dr. Peter Pry as a reference, and “dropping his name,” that I'm not implying or suggesting he supports me (as one of your Fla constituents) on any matter other than protection & securing our GRID—however, just to be on the “safe side,” I'll explicit state it: While I'm sure most people would agree with most of my “constituent requests,” today, I don't represent anything beyond what's explicitly stated with regard to “dropping names” & “references.” (For example, I'm sure that Mr. Collinge would agree with our need to keep the Internet GRID safe & sound—but as he's given no public statements on this, I DON'T represent his views beyond what he's publicly stated—i.e., I'm not going to “change his words” or add to them. Same with all those in my other reference lists.) **<<<END CAVEAT*****

First, please take note of Dr. Pry's response to me, dated Fri 12 Nov 2021, 849am:

So impressive we have been trying for years to recruit Yuri Tkasch, who had been the USSR's chief NNEMP weapons designer, but he won't leave what's left of his design bureau, in Ukraine. As to contacting senators and congressmen: 1) A phone call to their office is more impressive than a letter or e-mail (they count the number of phone calls received on issues); 2) A letter is more impressive and is weighted more heavily than an e-mail; 3) Any communication should be respectful but firm. Display your expertise. Volunteer to provide congressman and staff with technical advice and help to understand the issue, draft legislation. 4) Reference and/or provide copy of President Trump's EMP Executive Order, noting it is also supported by the Biden Administration. Why is there no money in the infrastructure bill to implement the EMP Executive order, just studies? 5) Attached find an e-copy of my new book Blackout Warfare that you might want to send to enlighten them further. Thanks for clarifying, Peter.

But even if directional (and not omnidirectional or radial), still, 10 to 20 km is real impressive.

In other news, you've read enough of my e-mails to lawmakers, where I cc copy you, that you kind of know my writing style.

So, I'd like your thought here: As soon as I update my lists of supporters for various legislation...[redacted for length]

***** COMMENTS:** As you can see, [above](#), I asked for clarification on a scientific matter—and for advice e-mailing/phoning lawmakers. While it's no surprise that I'm very disappointed & frustrated with state & federal lawmakers on a variety of issues, I note that both Dr. Pry—and numerous others (powerful Republicans & powerful Democrat leaders—plus many *less-famous* personal friends) have almost uniformly given me the same advice: Polite, but firm—and carefully document my complaints and claims, and offer to help if able. **I'll attempt to do just that.**

Next, in Dr. Pry's Nov 16 response, [below](#), to my request to let me drop his name, he kindly gave me

his blessings:

Dr. Pry,

you would not mind, would you, if I shared your advice about EMP matters with lawmakers would you? Here's the screenshot in question, a small snippet of my question, and your answer. ***** COMMENTS:** Lastly, I accidentally caught him as a bad time, when I needed a copy of a study paper (he and his natl director had asked me to join the taskforce, and I needed a certain textbook), and his reply included mention of him working with **you** to draft an Executive Order to protect, harden, and secure Florida's power/telcom GRID.

I really can't afford time to oversee or advise on every project, which is why we have the EMP Task Force to help. For example, right now I am supposed to be crashing on a draft Executive Order for EMP protection for the State of Florida, due at 2:00 PM this afternoon. Dr. Pry -- Thank you for taking a moment to speak by phone last night. Anyhow, I called

Glenn Rhoades and inquired about being on the EMP task force, as you asked, and he gave me a brief overview -- but he also said that I should have a copy of your book, "The Power and The Light," but was unable to find it on his hard drive, Google drive, or in his received emails.

I hate to bother you, but I figure you might have a copy you can email me...[redacted for length]

***** COMMENTS:** Ok, that's the end of my quotes of his replies to clarify my comments above, and I'll pick up the football & start making headway towards a touchdown & a few extra points.

First, I note that in my last email, addressing this matter, I included 3 email attachments:

- * Blackout_Warfare_interior10thfinal.pdf (6416KB)
- * Supporters-GRID-UPGRADE-FINAL.pdf (4903KB)
- * SolarFlarePAPER.pdf (1342KB)

But, when reviewing my notes of recent, I notice that I neglected to include Dr. Pry's "All Hazard's" paper, "DrPeterPryAllHazardsPaper_PDF.pdf" (1654KB), which includes a draft version of an Executive Order. The "GENERIC EXECUTIVE ORDER" is included in the last 2 pages of that PDF document, and—while I can't verify whether that's his "latest" or most "updated" version, I have read it, and it seems very helpful should you wish to use your limited Executive Order authority here to protect Florida from, you know, the same stuff that happened in California (*wildfires*), Texas (*snowstorms*), or QUEBEC CANADA (*solar flares – alone – knocked out all power, as illustrated on pages 6 and 7 of this short, 16-page, PDF document, in the attachments here. The Blackout Warfare book, in my last email, was over 6MB in file size, and I will not try to "squeeze" it into this email, but you can look at my email dated Sat, Nov 20, 2021 at 3:27 PM or visit <https://ContractWithAmerica2.com/#grid> to download another copy, should you or your staff need it. I will, however, try to include another copy of my solar flare paper. Numerous scientists have looked at my paper and said it is very helpful in understanding and protecting against the solar flare threats (like those that "took down" POWER QUEBEC for over 9 hours recently). However, you shouldn't take my word—get your own experts to review it before taking my word here. CAVEAT: The only errors I've found are outdated or bad links –some due to copyedit typos, others due to outdated "bad link" pages. Other than that, my solar flare research seems current & up to date. Ok, that about wraps up my updates regarding the GRID issues—except for one other thing: I'd appreciate it if you used your "bully pulpit" to call on Federal Lawmakers to pass the various GRID bills outlined at <https://ContractWithAmerica2.com/#grid> We recall you've used your "bully pulpit" to advocate for/against certain Federal vaccine/mask mandate issues, and while these are "Federal" issues, you apparently believe that 9TH and 10TH Amendment "states' rights" issues are invoked, and, if you can "speak up" about a virus that has, like, a 99% survival rate (which means **Liberals & Democrats** should try to be healthy, but stop freaking out), and vaccines, which also have, like, 99% or more of recipients survive without side-effects (which means **Conservatives & Republicans** should try to be healthy and talk to their doctors, but stop freaking out about this matter, which hasn't even hurt myself or my mother—both older adults—which got vaccines/boosters)... If you can "speak up" about virus/vaccine/mask issues which –while important –aren't as critical as, say, 911, GPS, Power, Internet, or such going down –then could you not find it in your heart to "speak up" to Federal lawmakers on the GRID issues—you know, that can deep-six & "take out" Florida in short order? Thanks!*

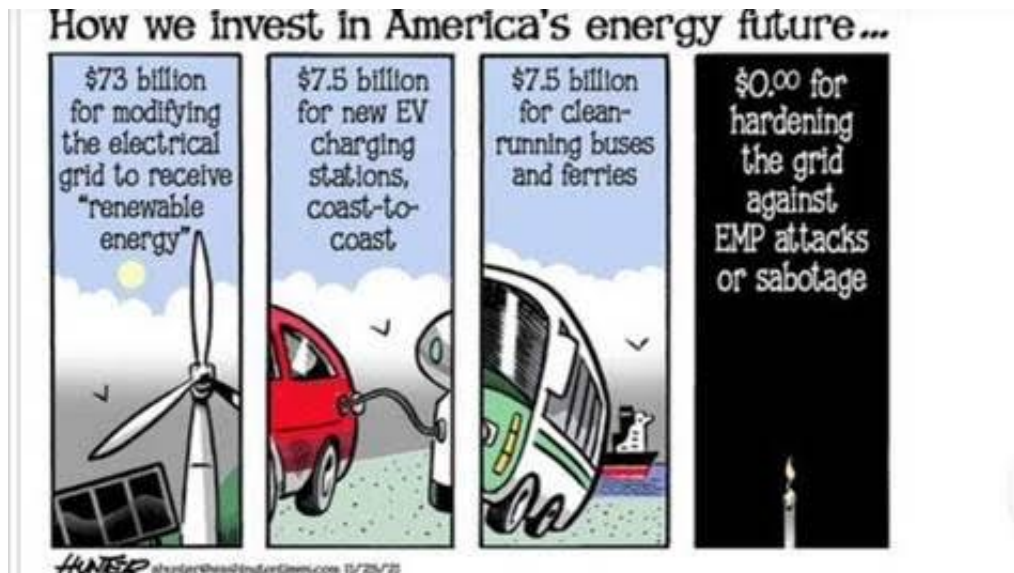

Before I move on to the 2ND subject, please see—for your inspiration—a couple of political cartoons and MEMES, below, to clarify and motivate—and SAVE LIVES:

First, a small "Fair Use" image from The Washington Times, <https://Web.Archive.org/web/20211202210303/https://www.washingtontimes.com/cartoons/state-states/how-we-invest-americas-energy-future/>, Or: <https://Archive.vn/tMmKY>, titled "How we invest in America's energy future...", claims (in 4 panes) that:

- ** \$73 billion for modifying the electrical grid to receive "renewable energy"
- ** \$7.5 billion for new EV charging stations, coast-to-coast

** \$7.5 billion for clean-running buses and ferries

** \$0.00 for hardening the grid against EMP attacks or sabotage

While I can't verify all these claims, they look mostly true, according to official sources:

SEE ALSO: <https://www.Google.com/search?&q=infrastructure+bill+billions+renewable+energy>

Finally, please see this unattributed MEME, asking the rhetorical question: **“WHICH IS MORE IMPORTANT?”**

(left pane) “70 people” (referring to the hardening the GRID inside Air Force One, which is indeed important)

(right pane) “According to “Live Flight Tracker!” there are about 3300 planes in the air at the moment. Assuming an average capacity of 200, there are about 660,000 people over the US at any one time.”

This meme doesn't attempt to suggest we fail in protecting Air Force One, the president, etc., to be clear. (We MUST protect the president, Air Force One, his staff, etc.) – However, it does point out that we spend untold billions to protect a very small number of people, but fail to protect the vast majority of Americans—and, by my own estimates, it wouldn't cost that much money to “harden” & “protect” our country's air planes, & other critical infrastructure. But (just ask TEXAS viz-a-viz snowstorms, or CANADA or CALIFORNIA) how much it costs to RECOVER. “Prevention is the best medicine.” HARDEN THE GRID, please. Save lives. OK, just as important as the “power,” “911” & “GPS” are our own lives & health, so this brings me up to my 2ND subject of “Priority I” importance:

II. Health / anti-cancer research (health crisis/threat)

Next, I notice that I overlooked including Dr. Joseph A. Ladapo, MD (your surgeon general) in my email with anti-cancer research. *** MY DEEP APOLOGIES!! *** In addition, I think I may've overlooked including all the research I have on this. I'll attempt to correct these mistakes today. In my Thu, Oct 28, 2021 at 12:49 PM email to your office, you recall I sent you some “anti-cancer” research because –while it wasn't a traditional “state or federal” issue, nonetheless, I felt bad when I heard that your wife, Casey DeSantis, revealed publicly that she was diagnosed with breast cancer. The “3__GovRonDeSantis_CoverLetter.pdf” attachment in that email was pretty comprehensive—but I think that I overlooked mention of my good friend, Kevin F.F. Montague's research on various cancers, prostate and otherwise. While his research isn't free, it's a good supplement to my own research (remember my education & the fact that I got a double major with honours in Biological & Chemical Sciences from FSU: I'm Valedictorian of my electronics college class). Whether you purchase Kevin's books (I bought all his books except one that was subsumed in the unabridged edition—and don't regret my purchases), that's up to you, but because I believe God placed you in authority to “do good,” you can advance anti-cancer policy (whether by governmental action or mere “public education,” I can't say for sure). ***DISCLAIMER: I'm not making any profit off anything Kevin sells, and he can barely pay his own bills: He sure isn't paying *me* anything to mention his books.***

While I can't advise you, precisely, on how to use my detailed "anti-cancer" research, Gov. DeSantis, this much I do know:

(#1.) You & your wife, Casey DeSantis, have publicly spoken about ****her**** breast cancer.

(#2.) Florida State Senator, Tina Scott Polsky (D-FL-Dist.29), another state senator, recently spoke publicly about her ****own**** breast cancer diagnosis. **(We all hope my research can help both Sen. Tina Polsky and your wife, Casey—and all others in need.)**

(#3.) Myself, the undersigned writer (Gordon Wayne Watts), has just spoken publicly about ****his**** own prostate cancer diagnosis—and posted & distributed some of his own research (and that of a friend) publicly.

(#4.) Americans, in general, have much higher breast cancer rates than many other countries—QUOTE: "With breast cancer rates continuing to rise in the United States and Europe, researchers have begun to look toward Asia for insights as to why Asian women on the whole have much lower incidence of this devastating disease. Specifically, the age-adjusted death rates due to breast cancer from 1990-1993 were 3.3 times lower for Japanese women than American woman and 4.5 times lower for Chinese women compared to American women." Closing comments regarding cancer and health: I think it's appropriate to insert an inline image about America's health problems—see below for just one such graph to inspire and motivate us to “study further”:

BEAT CANCER—BE A POSITIVE CHANGE:

With that said, I hope this information is helpful & inspiring, for both Dr. Ladapo (whom I accidentally left out of my last email), as well as both your wife, Casey, and state senator, Tina Polsky, both of whom have spoken publicly about their breast cancer diagnoses. Moreover, while I see the point about opposing “health mandates” (be it vaccines, masks, or dietary & lifestyle changes), nonetheless, I hope both “public education” and “free market incentives” can be used to promote good health—and BEAT CANCER—thus allowing you to –somehow

(??you figure this out??) use your position of fame to "effect positive change" that helps Floridians (without going overboard with "mandates" or "over-reach"). The surgeon general is smarter than me & you combined (even with my vast education in health sciences), thus I hope he (and his staff) can offer input & guidance to somehow "channel" my research & information into a positive change for Florida, America, and the world.

All that above was a "mouthful": Some say I can be "talkative," and rumour has it that there may be a grain of truth in that. But, in all seriousness, at least 3 of the 4 issues addressed in today's e-mails are **PRIORITY I, "life and death" matters**, and, to assure you that you're not wasting your time with this lengthy & verbose e-mail, I'll show you but one thing—my signature, with certain (tho not completely perfect) "multi-discipline" educational credentials:

Editor's Note—you remember my 4-pronged "subject line," above, right?

I. "GRID" Exec Order re protecting/securing Fla Power/Telcom GRID (security threat)

II. Health / anti-cancer research (health crisis/threat)

III. Federal "student debt" to Fla State "annual budget" ratio (economic crisis)

IV. The public relations issue with regard to Dr. Joseph A. Ladapo, MD, PhD (PR issue)

Well, instead of addressing point "III," the economic crisis, next, I'll take editorial liberty to address point "IV" next—thereby "saving the best for last": Because Dr. Ladapo is involved with both the fight to beat cancer (as a brilliant medical doctor) as well as the controversy involving Senator Polsky, it's a proper "segue" to have point IV immediately follow point II, above.

IV. The public relations issue with regard to Dr. Joseph A. Ladapo, MD, PhD (PR issue)

With that said, I will continue...

*****Important CAVEAT>>>** We all saw, above: I advocated for Sen. Polsky and Dr. Ladapo to "team up" & beat cancer (her as patient & victim, and him as medical specialist), so what I say below—while, of necessity, being "very hard words" to bear, isn't meant in insult or disrespect towards either. **<<<Important CAVEAT*****

While you may think this issue has been addressed properly, I, as your constituent (and, technically, your boss), do **NOT**. **All guilty parties (which include myself) have NOT been held accountable**, so, since I have as good diplomatic & communication skills & respect as anyone, I shall address this —and then we can all be done with it—and move on.

First, we all remember Dr. Ladapo went to meet with Sen. Polsky, as recounted by the Tallahassee Democrat, in my old stomping grounds, back when I was an FSU student: “Florida's top health official was asked to leave a meeting after refusing to wear a mask at the office of a state senator who told him she had a serious medical condition, officials have confirmed,” **Source: “Florida Surgeon General Joseph Ladapo asked to leave meeting after refusing to wear mask,”** by Adriana Gomez Licon, **Associated Press**, Published 3:36 p.m. ET Oct. 24, 2021, Updated 1:56 p.m. ET Oct. 25, 2021,

LINK: <https://www.Tallahassee.com/story/news/local/state/2021/10/24/fl-surgeon-general-ladapo-asked-leave-meeting-not-wearing-mask-tina-polsky-office/6167310001/>

Shortly, thereafter, Dr. Ladapo responded, as one might expect:

QUOTE: “Nearly a week later, after coming under increasing criticism from Democrats, lawmakers and others, Florida's top health official posted a statement on his Twitter feed that he was saddened by a state senator's cancer diagnosis but felt wearing a mask during a meeting with her wouldn't have been productive. [] "Having a conversation with someone while wearing a mask is not something I find productive, especially when other options exist," he wrote. "It is important for me to communicate effectively with people. I can't do that when half of my face is covered." [] According to Democratic state Sen. Tina Polsky, D-Boca Raton, Florida Surgeon General Joseph Ladapo and two aides arrived at her Tallahassee office Wednesday, Oct. 20. Ladapo had requested a meeting to discuss his confirmation in the Senate after being named to the post by Gov. Ron DeSantis last month. [] Polsky told The Associated Press that Ladapo and two aides were offered masks and asked to wear them when they came in. She did not tell him she had breast cancer — which she has since made public — but did say she had a serious condition. Ladapo refused, she said, and offered to sit outside instead. [] Ladapo said he offered to find some other solution that would respect both of their preferences, even sitting outside her office in the hallway, but she declined,” **Source: “Florida Surgeon General Ladapo says he can't 'communicate effectively' in his refusal to wear mask in Polsky's office,”** by C. A. Bridges, **Tallahassee Democrat**, Published 3:31 p.m. ET Oct. 26, 2021, Updated 10:36 a.m. ET Oct. 29, 2021,

At first, I was like “Elihu the son of Barachel the Buzite, of the kindred of Ram,” the “4TH” guy who confronted the legendary JOB (think: “the patience of Job,” the Biblical character), who was younger than Job's other 3 friends: Elihu waited to speak, thinking the other 3 “**wise men**” friends of Job would solve the problem—but, **alas!** They didn't have an answer for Job: (JOB, chapter 32, JudeoChristian Holy Bible: <https://www.BibleGateway.com/passage/?search=Job+32-34&version=NIV;KJV> or look in your own Bible)

NOTE: *I'm not advocating or opposing any particular religion—but this metaphor or comparison is very appropriate:* I waited for “**wise**” **political types** to address this “Ladapo vs Polsky” controversy ...and **alas!** They didn't address it completely... so I shall—see below:

ANALYSIS:

{{#1.}} MR. WATTS – The first person who is guilty, is *myself*, the undersigned writer, Gordon Wayne Watts: I knew full-well who was wrong, what should have been said, and how to say it... but alas!.. I didn't. While a “good case” can be made that I was “right” to take a “wait and see” approach (and while I also didn't want to send too many emails & become annoying after my earlier emails to your office), nonetheless, I feel that I was the “most wrong” person here, but as the “past is the past,” and water under the bridge, and water “over the dam,” all I can

do now is apologize—and do better (*which is what I'm doing now*).

{{#2.}} The next person who is at fault, not surprisingly, is Dr. Ladapo, himself. Now, I don't mean any disrespect, but, as my father, the late Bobby Watts, might say, “what harm would it do” for Dr. Ladapo to simply take a deep breath, put on a mask, & grant Sen. Polsky's wishes? I add that this concept (of respect for another person's weaker faith—Senator Polsky's faith in being maskless is weak—and probably with good scientific justification) is echoed in the religious writings of Paul the Apostle – which, while a “religious” writing (and not legally binding on anyone because America allows free exercise of faith) are nonetheless “good common sense,” and – I will add – ****are**** “morally” binding upon you, Gov. DeSantis, because, as you claim to be a Catholic Christian, this passage would be a standard you should respect—see e.g., ROMANS chapter 14: <https://www.BibleGateway.com/passage/?search=Romans%2014&version=NIV;KJV>

Again-- my mention of religious text isn't meant to advocate or oppose any particular religion –but, as it makes a “good common sense” point (and should be binding upon you, Gov. DeSantis, if you claim our likeminded faith), I mention it for clarity.

****** In this context, it means that Dr. Ladapo shouldn't tell Sen. Polsky how to believe regarding masks.

****** And, likewise, she shouldn't tell ****him**** how to believe: **Both should accept the others' views—and live in peace.**

So, whether you approach it from a “common sense” view (quoting my late father) or from a religious analysis (Romans 14), in your faith, and they say the same thing, then, respectfully, I must dissent from Dr. Ladapo's view that he should ask Sen. Polsky to conform to his views on this matter: **He should respect her sovereign choices in these matters.**

Editor's Note: I can't find anything online to indicate what—if any—religion Dr. Ladapo is, so I can't say with any certainty that these religious standards apply to him. But, suffices to say that they are “plain common sense,” and as Dr. Ladapo could've worn a mask (or done a “phone conference” with Sen. Polsky), I can't, in good conscience, support or condone his behaviour here. But—again, while loads of “haters” are out there, I DON'T mean any disrespect to him.

{{#3.}} The third person who is at fault, perhaps surprisingly, is Sen. Polsky. Now, my statement here will no doubt be controversial. However, I don't mean any disrespect to Sen. Polsky—which should be obvious by my defending her on two fronts earlier (first, suggesting we combat & beat cancer, and secondly, in my confronting Dr. Ladapo, and politely, but firmly, placing proper blame & holding him accountable for his mistreatment of Sen. Tina Polsky).

Now, I make my case against Sen. Polsky on 2 fronts:

First, in absolute terms, as to what was (and wasn't) reasonably possible for her.

Secondly, I do like my dear mother suggests, and I “place myself in her shoes,” asking: “What if ****I**** had cancer.”

Wait a second: I **do have cancer,** and while my treatment may be different, let me assure you that the radical caloric reduction regimen I've done (and may continue) most certainly weakens my immune system—and, as such, me being around “maskless” people (who can more easily spit on me by accident) is of no small moment. But, while the virus is real, both my personal experience and my own research incline me to not be overly afraid—and, even ****if**** I were to be concerned with catching a virus, I'd put on a mask, social distance, & stuff my body full of vitamins, minerals, & herbs, **while I waited for the “green light” to get a vaccine.**

So, using the 2ND standard—***me placing myself in her shoes***, I don't fully agree with her concerns here.

Secondly, using the 1ST standard, looking at “absolute” (and not relative or emotional) facts, I must note that Sen. Polksy had the same “alternatives” as Dr. Ladapo (namely, phone or video conferencing, or even speaking outside, as he'd offered).

However, I DON'T hold Sen. Polsky NEARLY as much to blame as either myself or Dr. Ladapo –chiefly because

she has cancer (probably worse than my prostate cancer), and, both my morals & religion suggest I should be lenient & understanding to others “more than” I would for myself. Thus, while I sincerely believe she could've (and should've) chosen one of the other 2—3 alternatives offered her (phone, video chat, speaking outside—which she probably does lots anyways in other venues), nonetheless, we must be very careful, and give Sen. Polsky the benefit of the doubt—and extra assistance & understanding, appropriate as all people are created in the image of God—and have feelings, value, & worth.

{{#4.}} The fourth person who is at fault, perhaps not surprisingly, is you, Gov. DeSantis. Now, I admit that I don't know what you could've done, as it would've been “after the fact,” but perhaps, as you ARE the governor, and “the buck stops here,” perhaps you should be held more to blame or accountable than Sen. Polsky: She has cancer—you, so far as we know, don't. However, when I'm placing blame on you, I don't mean any disrespect—only my belief that you should've done more (like maybe speak up sooner—maybe you were guilty of the same slowness as I was).

I may offend someone here, but I don't mean to offend anyone with my assessments.

Nonetheless –In conclusion (to this matter), I'm disappointed & saddened that everyone acted so childishly and immature: **Even IF I'm wrong about everything else, Gov. DeSantis, ONE thing is CRYSTAL CLEAR: Nothing at all would've been wrong with Dr. Ladebo and Sen. Polsky speaking by phone or video chat.** In fact, speaking outside should be OK—because we ALL do it all the time—both cancer patients and those not—but even barring the “speaking outside” option, you “Governor's Mansion” folk are much richer—and more well-paid than me: You all could've done a video conference—and been done with it. PROBLEM SOLVED. <<<Please take my suggestions to heart so we don't travel this path again. **Let this be “one less headache” for us all.**

III. Federal “student debt” to Fla State “annual budget” ratio (economic crisis)

**** “Saving the best for last...” <<< This quote is accurate—and I will prove it—and not disappoint.**

Now, this matter is neither cancer/health nor GRID/power/911 in threat nature—merely an “economic” crisis, and one might think it doesn't pose the same level of threat as the other 2 “big” problems above. But, that would be wrong: Our economy is the “life **blood**” of our business transactions: When the economy's messed up, people suffer. Indeed, you seem to agree with me, as shown by your actions to “open up” Florida, and “lift” many “COVID” restrictions (much to the anger of some of your critics). Now, despite the criticism I may get from my many Democratic friends (and I have many), I do appreciate your attempts to reign in COVID-19 Coronavirus and balance health with economy—while advocating vaccines for Floridians. Indeed, as **SMITHONIAN MAG**, reports: “According to data from Johns Hopkins University, 681,253 individuals in the United States have died from Covid-19 infections, while over a century ago, the country lost an estimated 675,000 people during the 1918 influenza pandemic, reports Holly Yan for CNN.” – **Source: “Covid-19 Surpasses 1918 Flu to Become Deadliest Pandemic in American History,”** by Elizabeth Gamillo, © 2021 Smithsonian Magazine, September 24, 2021,

The COVID-19 Coronavirus is, indeed, deadly, comparable (perhaps worse) than the seasonal flu. And your use of “bully pulpit” to address what you perceive as “Federal overreach” is appropriate, if indeed, the Federal Government is “over-reaching” and “encroaching” upon FLORIDA'S sovereign 9TH and 10TH Amendment “States' rights,” as enshrined in the U.S. CONSTITUTION. **– My point?**

The worlds population in 1918 was quite small: “Estimates suggest that the world population in 1918 was 1.8 billion,” **Source: “The Spanish flu (1918-20): The global impact of the largest influenza pandemic in**

However, current world population is much larger—current estimates range from 7.8 Billion to 7.9 Billion, plus or minus: LINK 1: <https://www.Census.gov/popclock/> LINK 2: <https://www.WorldOMeters.info/world-population/>

So, as a percentage, the 1918 pandemic killed about 0.0375% of the world population (675,000/1,800,000,000 x 100%), but the current COVID-19 Pandemic has killed only about 0.008623% or so (maybe slightly more accounting for total world population estimate differences, that is: 681,253/7,900,000,000 x 100%). In other words, the 1918 virus was about 4.3 times more deadly, yet there was no “continual alarm” by both Democrat & Republican “infighting” (**as is now**). Likewise, both my personal experience –and anecdotal observations of numerous friends & family (some whom are elderly & with many risk factors) –and what online research I could do –viz: <https://www.Google.com/search?q=vaccine+danger+death+rate> all suggest that while there ****is**** some risk with vaccine, the risk isn't a serious health concern.

My point? While I applaud you (and both **Democrat & Republican** politicians) for using the “State” governor's office to address “Federal” matters (Covid & vaccines), both **Democrat concerns of the virus** and **Republican concerns of the vaccine** as (see raw data above), **overblown and overestimated**. Why do I go to “great lengths” to mention “virus/vaccine” matter? ANSWER:>> ***** REQUEST:** If you're willing to use “Bully Pulpit” of governor's office to address a “medium” FEDERAL threat **above**, then please use the “Bully Pulpit” to address a “grave” FEDERAL threat, **below**: As Alan Collinge has claimed (and I fact-checked), FLORIDA'S ****FEDERAL**** student debt, at \$118.9 Billion, is way more than Florida's “annual” ****state**** budget of about \$81 Billion or so—**which is an economic crisis to Florida**. We –Floridians –ask you to “speak out” & demand the Federal Government STOP crushing Floridians completely to death. (Both metaphorically and literally, as the recent spike in college debt related suicides is both a new phenomenon, a PREVENTABLE phenomenon, and a real thing.)

We The People –your constituents here in Florida –respectfully ask you to get your priorities straight and focus on real problems –not “medium” problems: We'll always have a seasonal flu, and this virus isn't going away, so we should stop being distracted –both **Republicans** and **Democrats** –are fighting over an important, but over-exaggerated – matter: If **Democrats** are still concerned that the virus is a problem, then you may employ some of my “anti-cancer” research, as, indeed, many of the same treatments that beat cancer also boost the immune system and beat various virii (viruses). And, if **Republicans** are still concerned with “vaccine” or “mask” mandate over-reach, then **Republicans** should remember: Masks & vaccines RARELY kill anyone, unlike crushing student debt, which is a new form of slavery—and one which must be abolished, **as all good Americans oppose ANY and ALL forms of slavery and oppression**.

*****REQUEST:** Gov. DeSantis, please use your “bully pulpit” to call on Federal lawmakers to:

{{--#1--}} CUT PORK BAILOUT SPENDING: Implement the pork bailouts with subsidy cuts to higher ed loans (which conservatives have been calling for) – i.e., stop using MY tax dollars to make/back toxic college loans for illegally-inflated price-gouging prices to students who will NEVER be able to repay these illegally-inflated costs—and which actually cause tuition to INCREASE (when greedy colleges see the deep pocket cash cow on our tax dollars).

{{--#2--}} PRICE CONTROLS: Price controls (like we do with electric, water, Internet, insurance, etc.) in Higher Ed. (Actually, while I'm not in favour of “free handouts,” let me say that making HIGHER ED, aka college, free – as we do with PUBLIC ED – would cost taxpayers less AND costs students less: American higher ed is deplorable and must be fixed! Abolish this “Epic Fail” lending system—and employ these 3 methods in the mean time.)

{{--#3--}} Constitutional STUDENT LOAN BANKRUPTCY rights: Please notice that many **“Conservatives”** have promised to cut higher ed loan subsidies and many **“Liberals”** promised that PSLF (public service loan

forgiveness) – and both have been abysmal failures, ok? Ever wonder why? **Yes, that's right, Gov. DeSantis: Without the "threat of bankruptcy" by student loan borrowers, both the Dept of Ed and "higher ed swamp" lobbyists AREN'T reigned in, and mayhem ensues!** Therefore, if you value your children, grandchildren, & great-grandchildren, and want them to have an affordable college—like every other generation before them had—then you'll speedily "get on board" with S.2598 - FRESH START Through Bankruptcy Act, 117th Congress (2021-2022), which—as of press time—has twice as many GOP sponsors as Democrat: <https://www.Congress.gov/bill/117th-congress/senate-bill/2598/cosponsors>

Related bill: <https://www.Congress.gov/bill/117th-congress/house-bill/4907/text> addressing private student loans also needs our support.

I add, besides myself, Senators Josh Hawley (R-MO), & John Cornyn (R-TX), sponsors to this bill, above, there are NUMEROUS other supporters—a growing number of prominent GOP leaders (see the attached PDF file, "Supporters-StudentLoanBankruptcy-only-FINAL.pdf"), including (but not limited to) our mutual friend, Dr. Ed Shoemaker, and including the presidents of three local Republican clubs, Dr. Shoemaker's VP, a financial expert, and even more democrats. Democrats are "more correct" on this issue, and that is a chief reason why they won the U.S. Senate races in Georgia last election. In fact, I do news coverage of this matter:

** <https://GordonWatts.com/#inquiry>

** <https://GordonWayneWatts.com/#inquiry>

IF YOU DISAGREE with my claims above, then please explain to me why "Conservative" lawmakers haven't even TRIED to cut these pork higher ed loan bailout subsidies (really "grants to colleges" disguised as student loans), nor why PSLF has like 98 to 99% fail/reject rate? LINK: <https://ContractWithAmerica2.com/#PSLFfailure> LINK: <https://www.cnn.com/2021/03/23/the-us-already-has-student-debt-forgiveness-but-barely-anyone-gets-it.html>

IF YOU AGREE—that is, if you can't refute my claims or explain them away, then please use the same fervor with this matter as you have been doing on the vaccine/mask mandate—a matter which has nowhere the impact as this "scam", which effects 44.7 Million Americans with student debt -- and another 40-50 Million who are cosigners, family, & friends (upwards of >100+ Million Americans).

** **GEORGIA GOVERNOR BRIAN KEMP highlighted:** You'll notice that I'm cc copying Georgia Gov. Brian Kemp, even though he's clearly not my Governor. While I don't expect him to respond (nor does he owe it to me), please see the attachments in my email here: Gov. Kemp actually "personally responded" to concerns I had on no less than three (3) occasions. (The 4TH time, I guess, my email was too long and/or he got busy with Georgia matters—and placed them in proper priority over a Florida citizen.)

If Gov. Kemp can respond to my "out of state" matters (he's not even my governor, hello?), could you (or your staff) not please respond—point by point—with "yes or no" answers—to my "in state" request for help? Remember also: My voice isn't alone. Many people have these concerns. We expect you to represent us—**not special interests or the higher ed swamp lobbyists who have infested our American Higher Education system—making it no longer affordable.**

P.S.: While we're all "conservatives" here & don't necessarily support the cancellation/forgiveness of student debt, nonetheless, I want to leave you with 2 MEMES that highlight this failed lending system—which will "take down" Florida with it if you don't "stand up to the swamp" and demand equal rights: If Donald Trump can get bankruptcy rights, if Credit Card users, GAMBLERS, and even the colleges, themselves, who rip off students, and then go out of business – an all get bankruptcy defense, why not college students? **There are only 3 choices as I see it:**

1. [[#1]] The student loan system collapses, pulling down Florida's economy with it (causing many more GOP electoral losses, I might add—tho you might "get lucky" this one upcoming election cycle—or not?). (Besides the collapse of Florida's economy, we need college NEVER become affordable again for our kids & grandchildren, etc. Is that what you want!? Oh, really?)
2. [[#2]] We advocate our "Conservative alternative," namely "Constitutional" student loan bankruptcy uniformity restoration (like it was back when the system worked), "Rule of Law" price controls, & "Conservative" college loan subsidy cuts—needed to save "**untold trillions**" in unneeded spending: college debt, at almost \$2 Trillion, is almost ten (10%) percent of total U.S. Debt: See research, in the

attachments, to verify.

3. [[#3]] We admit that the Liberals are right: We have no alternative. We just give in to their demands & “give up.” Hint: <https://CHANGE.org/CancelStudentLoans>

Which is it? Please chose—and choose wisely. Parting thoughts: The “epic fail” student lending system is dead and is pulling down our economy. This must be illustrated in image form to make the message clear. See *below...*

GENERIC EXECUTIVE ORDER

EXECUTIVE ORDER

EXECUTIVE DEPARTMENT

STATE OF _____

EXECUTIVE ORDER NO. _____

by the

GOVERNOR OF THE STATE OF _____

WHEREAS, the reliable operation of [STATE]'s electrical transmission grid system is critical to ensure the health and safety of the People of the _____; and

WHEREAS, it is recognized that such electrical grid system within the State of _____ is part of a regional system that is governed and administered by the _____ (Regional Electric Reliability

Organization); and

WHEREAS, it is further recognized however that such regional grid system is dangerously vulnerable to natural and nuclear electromagnetic pulse (EMP) and other man-made and natural acts that could disrupt service for a period of time that could pose significant risk to the security of the People of _____ as well as to the security of our Nation; and

WHEREAS, such vulnerability constitutes an extant energy emergency; and

WHEREAS, it is thus incumbent upon this Office to take measures through the Executive Department to protect the portion of the transmission grid system located within the State of _____ to the greatest extent possible;

NOW THEREFORE, I _____, Governor of the State of _____, hereby do declare that an energy emergency exists within the State of _____. I do hereby further declare that such energy emergency is based upon the existing vulnerability of the electrical transmission grid located within the State of _____ to natural and nuclear EMP and other man-made and natural acts that could disrupt service for a period of time that could pose significant risk to the security of People of this State.

IT IS FURTHER DECLARED AND ORDERED that no later than _____, all investor owned and public utilities shall file a secure, confidential report to the Adjutant General and the Director of Emergency Services that shall identify grid vulnerabilities and their individual plans to address such vulnerabilities; and

IT IS FURTHER DECLARED AND ORDERED that no later than (60 days from the above date) the Adjutant General and the Director of Emergency Services shall submit a combined secure and confidential report to the Office of the Governor summarizing the above-referenced reports and plans and setting forth their specific recommendations for securing the transmission grid system located within _____.

IT IS FINALLY DECLARED that the actions set forth in this Order are authorized by Article __, Section _____ of the Constitution of the State of _____; and further specifically authorized by _____.

IN WITNESS WHEREOF I have hereunto set my

hand and caused the Great Seal of the State of _____

to be affixed this __ day of _____, 2014.

Governor of _____

With kind regards, I am, Sincerely,

"First, they [Nazis] came for the Jews. I was silent. I was not a Jew. Then they came for the Communists. I was silent. I was not a Communist. Then they came for the trade unionists. I was silent. I was not a trade unionist. Then they came for me. There was no one left to speak for me." Some versions have Mr. Niemöller saying: "Then they came for the Catholics, and I didn't speak up, because I was a Protestant"; other versions have him saying that they came for Socialists, Industrialists, schools, the press, and/or the Church; however, it's certain he DID say SOMETHING like this. Actually, they may not have come for the Jews first, as it's more likely they came for the prisoners, mentally handicapped, & other so-called "inferiors" first -as historians tell us -so they could get "practiced up"; however, they did come for them -due to the silence of their neighbors -and due in part to their own silence.
