Dear Mr. Watts,

Thank you for contacting me regarding your concerns for the future of our environment. I appreciate the opportunity to respond.

Climate change is real and requires real solutions, and we can all agree that we need clean air, clean water, and must continue to make strategic investments in environmental protection. That is why, as Governor of Florida, I worked toward real solutions for the effects of climate change by investing hundreds of millions of dollars to address sea level rise, including over \$300 million for flood mitigation, coastal resiliency, beach re-nourishment and coral reef protection. As your Senator, I will continue to build on these efforts to ensure that future generations can enjoy all that Florida has to offer.

Again, thank you for your correspondence. I am proud to represent every citizen in Florida and I appreciate the time you took to provide your position on this matter. Should you have any additional questions or comments, please feel free to contact me.

Sincerely,

A handwritten signature in blue ink that reads "Rick Scott".

Rick Scott
United States Senator
