

**Congressman Scott Franklin** ✓

November 1 at 3:51 PM · 🌐

Today and every day, we honor our nation's heroes for their service and sacrifice. Over the next 11 days leading up to Veteran's Day, we'll be recognizing local veterans throughout the district.

Today, we're honoring 102 year old World War II veteran, Corporal Herman Jenkins. Corporal Jenkins is a Lakeland native and graduated from Washington Park High School in 1937. He enlisted in the [U.S. Army](#) in 1943 and proudly served with the 3123rd Quartermaster Service Company. During WWII, Corporal Jenkins deployed to the European theatre, where he guarded supply depots and German prisoners of war.

Upon returning home in 1946, Corporal Jenkins became a self-taught photographer until his retirement, in addition to his roles as a security guard and stock room manager. He now enjoys spending his free time with his wife, Essie Mae Jenkins, a 95 year old retired Polk County Public Schools educator, and their family.

On behalf of the entire 15th Congressional District, thank you for your service to our nation!

We certainly \*do\* appreciate your honouring of our veterans, including 102-year old Col. Jenkins, depicted here, but to echo others regarding your duties, I will paraphrase: "Activity" (what you're doing here and elsewhere) does ■■NOT■■ equate to "Productivity." Do you understand what we're saying? While I can't including screenshots in replies to your Facebook page, here, I see **John Anderson** ask what you're doing to keep our nation together. In case you missed it, my prophecies and predictions regarding Solar Flare threats are now coming to pass, and as documented in my recently published scientific paper on this issue, earth's protective geomagnetic field (which protects against such Solar threats) is slowly but surely collapsing. <https://www.bournemouthecho.co.uk/.../19682486.massive.../> If you truly care about this man, depicted above, you absolutely will support grid upgrade legislation, cuts to pork spending to fund it, and vocally support S.2598, the bankruptcy defense bill which would make key higher ed pork subsidy cuts politically viable, and, by contrast, you will collapse and crash the grid, the dollar, and your formerly stellar reputation if you fail here. See <https://ContractWithAmerica2.com/#grid> for solutions... And act! BE A CONSERVATIVE AND CUT PORK AND PROTECT OUR GRID, SCOTT.

Nailed it **Gordon Wayne Watts** - Like my sales managers have always said - know the difference between activity and productivity. I saw the solar flare notes from NASA and read this is only the beginning of an 11 year cycle of solar flares that can cause MAJOR problems to navigation

and communications.

Cut pork and the NDA. Congressman Franklin cares more about Afghanistan than district 15. What ever happened to make America Great?

Yep... agree **John Anderson**. I guess our views are unpopular with a certain unnamed Congressman who didn't invite us to his tele town hall meetings LOL...

**John Anderson**-- as my grid research confirms, the solar cycle is projected to increase and peak in a few years while the protective geomagnetic field is slowly but surely collapsing... aa we head into a pole flip-- a phenomenon which earth encounters every 100 thousand years or so. Will you call his office as I ask folks on my recent wall post, tagging you...and ask others to do likewise?

**Gordon Wayne Watts** Yes. This world is about to go back to 1513 if navigation and communications are disrupted. Instead this congressman is playing on the fears of people and supporting violence against our democracy and the democratic process (which he swore to uphold as a military officer and as a congressman). He has failed on both.

Yes, but what are you doing to keep our country together? This man fought to preserve our nation. You openly advocate and align yourself with secessionists.
