If you want to make college more accessible and affordable- stop guaranteeing student loans, and keep big government out. YOU'RE THE REASON it's so expensive!

You aren't wrong @RealDeanCain. BUT the PRIVATE LENDERS have turned the loans unconstitutionally predatory.

Return bankruptcy. End the federal lending system. Defund the colleges.

Take this lending scam to the BATH, and DROWN IT IN THE TUB.

Conservatives have a major student loan problem.
They've been tricked into defending the worst big-government lending scam in U.S. History.

I agree: Get pork subsidies out of college Superman! @StudentLoanJus1 would agree ContractWithAmerica2.com/#pork will u support #S2598 as a Conservative alternative to Liberal Handouts? Without bankruptcy defense to make them back off, lobbyists oppose pork subsidy spending cuts we seek

Moreover, these subsidies (so-called student aid) are NOT student aid: Colleges raise tuition when students have deep pockets loans. As I said in other reply, bankruptcy defense would make lobbyists resist these subsidies more likely. #S2598 is such a bill and has GOP support.

yup it is so expensive because the government will pay it so why shouldn't college continue raising prices.
